Alcohol: 13.0 %

RS (Residual sugar): > 0g/l

Soil type: Gravel, loam, clay.

Average Vine Age: 30 years

Drink: 2021-2031

Wine: 2021 Swan Valley whites are wildly aromatic, a modern interpretation of a classic blend. A long history of the Chenin Blanc growing in the Swan Valley maintaining it's high, natural acidity in the natural climate. Giving this wine the ability of ageing for up to 10 years.

Vinification: Made simply of three well known and established Swan valley varietals, all this fruit was handled very simply and traditionally. Hand-picked and whole bunch pressed in order to only extract the finest juice from the first 400l/tonne, cold fermented in order to preserve character and finesse along with its high natural acidity this will further complex the wine adding length.

Tasting Notes: Melons, kiwifruit, tropical, honey. Palate plush and round finishing with a lively acidity

Food pairing: Anything delicate like Fresh fish, prawns or even oven roasted chicken is a fantastic match.
